

Get the campus on your phone. GetRave.com

As a university student you need to be more connected than ever before. You need instant access to people and information. Your world is a mobile world, lived on-the-go and in the moment. PirateConnect enables a stronger, safer university community by empowering you to experience everything the campus has to offer, wherever and whenever you need it. Delivering critical campus alerts, and providing access to innovative academic tools and time-sensitive community information, Rave mobile phone applications bring the university to your phone with the immediacy you demand and the personal touch you deserve.

PirateConnect is a mobile phone program designed specifically for your school. It was created through a partnership between Sprint and Rave Wireless.

> Sprint provides the latest and greatest phones, student discounts on customized plans, an enhanced network on campus and a campus support center.

> Rave provides mobile phone applications that bring the campus to your phone. A phone application (or “app”) is a miniature webpage that can be accessed by your phone’s web browser. Each of the applications below provide useful campus tools to keep you safe, informed, and connected on campus.

 **RaveAlert**

 **RaveGroups**

 **RaveEmail**

 **RaveGuardian**

 **RaveAcademics**
