

Accessing Pirate Mail -- your FREE e-mail account

When you enroll for classes at Park University, you will be assigned a **FREE** and personal e-mail account. This will be the location for you to receive **ALL** official communication from Park University and, if you already have an e-mail account at your home or office, PirateMail can be forwarded to the e-mail account of your choice. Some email services do not have as much memory as the PirateMail. Be aware that forwarding your emails to other accounts may possibly cause some loss in information.

It is very important to check Pirate Mail frequently, because this is where all communication from Park is sent. This includes notices that your online classrooms are available, information about new or cancelled classes, and important information about graduation and the comprehensive exams.

To access your new e-mail account, please go to <https://pirate.park.edu/imp/login.php>.

You will be asked for your username and password. Your username is your student ID number. Your password will be e-mailed to you from the admissions office. Please remember that if you change your password in OPEN, it will not change your password for your PirateMail account. You will need to change your password in both places.
