

Attention Students:

We have a wonderful opportunity available to students who still have undergraduate pre-requisite courses to complete. We are now offering a condensed learning program that will allow you to learn the necessary material. This program will be more convenient and more cost efficient, then taking a traditional course. This program allows you to order a tutorial packet with software on any given prerequisite course for a \$50 fee (plus shipping and handling). You can then go through the book and CD and prepare for the exam. Once you feel ready, you go online to do the comprehensive exam and once you pass (results will be available immediately), the undergraduate prerequisite course will be waived. If you do not pass, you will have two more opportunities to take the exam and pass with an 80% or higher.

To officially be able to use the passing score online for the undergraduate pre-requisite, there will be an additional charge of \$150. This is a total of \$200 (plus shipping and handling). In exchange, you will be able to gain the necessary knowledge of the course but on your own time and for a budget friendly cost.

If you feel you have sufficient knowledge in any given pre-requisite course, you can go online and take a placement exam for \$25. If you pass with an 80% or higher, you will not need to take the course or do the program (the placement exam can only be taken once). However, if you do not pass the placement exam, you will then have the option to do the program (or take the course in the traditional format and receive a letter grade).

Going through the program will allow you to waive undergraduate prerequisites, but the program courses **do not** act as credits that you can transfer in and may not be acceptable elsewhere. This is strictly being used by the MBA program, at Park University, as a means to make the undergraduate prerequisites less of a hurdle for students who would like to get started into the program.

If this is something you are interested in or would like more information, please contact Jackie Campbell at jackie.campbell@park.edu or 816-559-5635 or Joslyn Creighton at joslyn.creighton@park.edu or 816-559-5622.

* We are offering this opportunity as an option for MBA student who need pre-requisites and is not a requirement. Please note that it is your responsibility to take this tutorial program seriously and use it as a tool to gain the necessary knowledge that is needed to be successful in the graduate courses. As a disclaimer, we can not know your personal education style or educational level in determining if this program is right for you. We encourage you to review all of your educational choices and chose the best option for your own personal educational needs. You are responsible for your grades in the MBA program.
