- You can get a better chance at getting used textbooks by preordering at whywaitforbooks.com.

Textbook Buyback

- To help ease the cost of textbook prices, we do textbook buyback during finals' week.
- We pay 50% back of the book's selling price if the book is being used again for the next semester, and we are not overstocked.
- Books not being used for the next semester receive money back based on national demand.

Example

A fall semester textbook is purchased for \$100.00. Your student uses it for 16 weeks. Their professor informs us they will be using that same book again for the spring semester. During the week of finals, they sell their book back and receive \$50.00. It only cost \$3.16 per week to use their textbook.
