Founded in 1875 in Parkville, Mo., a suburb of Kansas City, Park University has developed into a comprehensive, independent institution that is a national leader in higher education. In 2000, Park achieved university status and now serves 22,000 students annually at 40 Campus Centers in 21 states and online, including 35 campuses at military installations across the country.

Serving an ethnically diverse student population and non traditional adult learners has, for many years been central to Park's educational mission. Even in its first year, Park University enrolled women students as well as men, something that was unusual at the time and two of the original 17 students were Native Americans. Park was also an early integrator when it welcomed African American students to live in Parks residence halls in the 1950's.

Park continues to increase access to higher education by offering the quality undergraduate and graduate degrees students desire at locations, times and delivery formats that best serve their needs. In 2012-2013, the University was ranked as the No. 1 value among private colleges and universities by Parents and Colleges, an online resource for parents of college bound students. In 2011, Park was ranked the seventh most affordable private university/college in the nation, and first in the Midwest for tuition and fees, according to US News and World Report. Providing such access has developed considerable diversity among the student population, with 604 international students from 103 countries, and a 46 percent student representation from racial, ethnic and cultural groups typically under represented in colleges and universities. The University has repeatedly been recognized as one of the top 100 American colleges/universities in the nation graduating Hispanic, African-American and American-Indian students. In addition, extracurricular activities and championship- caliber athletic programs complement Park's outstanding scholastic programs

For more info about Park University, including admissions, visit www.park.edu or call (800) 745-PARK

Mission Statement

Park University provides access to quality higher education experience that prepares a diverse community of learners to think critically, communicate effectively, demonstrate a global perspective, and engage in lifelong learning and service to others.

Vision Statement

Park University, a pioneering institution of higher learning since 1875, will provide leadership in quality, innovative education for a diversity of learners who will excel in their professional and personal service to the global community

Profile Information

Type: Independent, non profit, four-year, coed, comprehensive Liberal Arts University

Accreditation: Higher Learning Commission of the North Central Association of Colleges and Schools

Financial Aid: More than 85% of undergraduates receive some form of financial aid

Scholarships: For offerings and qualifications visit www.park.edu/scholarship

Male/Female Ratio: 43% male, 57% Female Enrollment (Parkville Campus, full-time): 1600

Entrance Requirements: For specific info., visit www.park.edu/admissions/parkville/requirements.html

Tuition: http://www.park.edu/tuition/index.html

Room/Board: Varies depending on type of housing; visit www.park.edu/residence-life-

Fees: \$25 application fee – (non-refundable); \$50 Student activity fee (non-refundable);

www.park.edu/tuition/2013-2014-tuition.html for additional fees and charges

Popular Majors/Degree Programs: Business, Education, Psychology, Athletic Training, English, Social Work,

Geology, Art and Design, Spanish, Music, Communication Arts, Degree with Honors Program

Athletics offered: NAIA-Men's and Women's Basketball, Track and Field, Cross-Country, Soccer and

Volleyball; Women's Softball and Golf; Men's Baseball; as well as intramural sports.

Transferring to Park... 2013-2014

PARKVILLE CAMPUS (16 WEEK) DAY PROGRAM

Admission Standards

- 1. A cumulative GPA of 2.0 in all previous college course work.
- 2. Students whose GPA is below 2.0 may be individually evaluated. If accepted, the student will enter Park on academic probation.

To Apply ...

The Offic	ce of Admission must receive each of the following before an admission decision can be made. To
insure tha	at your file is complete, check each item off as you submit it.
	Complete the online Application for Admission.
	Pay non-refundable \$25.00 application fee. Can pay online with application, by mail, in person or by phone.
	Submit all required documents. Send official transcripts from each school previously attended. For military students, also submit a Joint Service Transcript (JST).
	ACT/SAT test scores required for School of Education students.
	Students with less than 12 semester hours at college level must also submit an official high school transcript or GED.

Admission Notification . . .

Park University recognizes your need to know at the earliest possible time. Therefore, as soon as your file is completed, the Admissions Committee will review your credentials. You will be notified within 48 hours of the decision by email.

Deadlines

Applications may be submitted through the final registration date for each semester.

General Guidelines for transfer to Park

- * Students transferring to Park must meet all degree requirements for Park University Undergraduate Catalog in effect when admitted.
- * All course work carrying a grade of "C" or better will be reviewed for transfer into Park University.
- * A Maximum of 75 credit hours may be applied from all 2 year schools.
- * Students must complete a minimum of 30 credit hours at Park University to meet residency requirements. A minimum of 15 of the 30 hours must be in students major.
- * Transfer students are required to take an assessment test for English and/or Mathematics if not transferring in courses equivalent to EN105 (First Year Writing Seminar I), EN106 (First Year Writing Seminar II) and MA135 (College Algebra), with a grade of "C" or better or if student has score of less than 21 on ACT or less than 500 on SAT test.
- * Transfer credits do not become a part of students overall GPA at Park.
- * If a course has been repeated, only the highest grade is used in computing the GPA for admission purposes.
- * "P" grades will not transfer unless school catalog states that "P' = "C" or better.
- * Courses that are considered "developmental" will not transfer to Park.
- * Courses that are vocational in nature, i.e. auto mechanics, carpentry, culinary classes, etc. will not transfer to Park.

OFFICIAL DECISIONS REGARDING THE TRANSFERABILITY OF PREVIOUS COURSEWORK ARE DETERMINED BY THE REGISTRAR'S OFFICE.

NOTE: For admission to the Online, Nursing, Alternative Certification or Metro Park/evening/weekends programs, please contact the respective department for appropriate deadlines and admission policies and procedures at 877-505-1059.

To schedule a campus visit or a transcript evaluation, call 816-746-2533

Students transferring to Park University from Johnson County Community College with an Associate degree (excluding AAS) can expect junior standing and acceptance of a minimum 60 credits. No more than 75 credits will be accepted from all two-year college sources. To assure completion of Park's university-wide graduation requirements, the following coursework should be included in the Associate Degree.

For Students transferring to Park with and Associates of Arts or Science Degree, the liberal education required curriculum will be complete provided the student has successfully complete the following with a "C" or better:

6 credit hrs. in the Division of Humanities

6 credit hrs. in the Division of Natural Sciences

6 credit hrs. in the Division of Social Services

BIOLOGY

The major in biology provides the graduate with a variety of courses for a diversity of experience in biology. This program includes courses in general biology, botany, anatomy, physiology, genetics, microbiology and research techniques. With the basic core courses, plus required supporting chemistry, mathematics and elective biology course, the biology graduate will be prepared for either the workforce or entrance into professional or graduate school. Students are strongly advised to seek either an additional major or minor to provide for maximum postgraduate opportunities.

Bachelor of Science degree.

BUSINESS ADMINISTRATION

Students taking the business administration major receive a broad education covering the major functional areas of business. This major will help a student prepare for a career in business or government leadership and provide him or her with knowledge and skills desired by all types of employers. It can also give one the background to organize and manage his or her own family business. Graduates in business administration typically find jobs in business, production management, personnel management, marketing management, or financial management. Many serve their communities as marketing or management specialists in insurance, real estate, investments, banking, communications, manufacturing, retailing and wholesaling. A number of students with this major move into graduate study in law, management or other business specialties. Bachelor of Science degree.

CHEMISTRY

In contemporary society, it is evident that the science of chemistry is no longer confined to the research laboratory, but is exerting a profound impact on social, political, and economic decisions at the local, national, and international levels. Chemistry is the recognized physical basis for the biological and psychological sciences and is important in every aspect of our industrialized society. Students wishing to pursue a career in the

chemical profession, medicine, dentistry, veterinary medicine, laboratory technology, or the environmental sciences are encouraged to consider the major program in chemistry with appropriate minors in other disciplines for their preparatory work. Bachelor of Science degree.

COMMUNICATION

The Communication Department offers four related concentrations: 1) Journalism, 2) Broadcasting, 3) Photojournalism, 4) Public Relations, and 5) Organizational Communication. These communication majors are designed to prepare the student for successful pursuit of professional and personal goals. An individual graduating from this program will also be equipped to function well in the larger setting of society. Each major combines traditional course work with practical application in the field of choice. This has proven to be invaluable to students and may take the form of internships, private employment, or work assignments (or a combination of all three). In the Journalism and Photojournalism majors, students work for academic credit on school publications: The Stylus, the century-old Park newspaper, and Narva, the yearbook. In the Broadcasting major, students work at KGSP-FM, the Park University radio station, or in the production of programs for the Northland News. Students who select the Organizational Communication or the Public Relations majors often have specific occupational goals in mind, such as public relations, personnel management, human resources or related fields. Bachelor of Arts degree. *Students in this degree program must also declare a minor.*

CRIMINAL JUSTICE ADMINISTRATION

The major in Criminal Justice Administration is designed to provide a comprehensive understanding of the complete criminal justice system within society in the United States. There are three areas of concentration, building upon the core curriculum. Law Enforcement, Corrections and Security. Providing a comprehensive understanding from a theoretical, philosophical and practical perspective, the program provides a broad background for over 40 basic career opportunities in the criminal justice system, both in the public and private sectors, at the local, county, state, national and international levels. Bachelor of Arts or Science * Students declaring BA must also declare a minor*

Choose from Criminal Justice courses not in the core or area of concentration. 1-200 level course; 2- 300 level and/or 400 level courses and 1-400 level course.

Available through the Parkville 16 Week, KC 8, Extending Learning and Online Programs

ECONOMICS

This degree program is designed to give students in-depth education in one of the applied social sciences. Economics is the social science which investigates the conditions and laws affecting the production, distribution and consumption of wealth in an organized society. Students who major in economics use their degree in working for business, government and other institutions serving in various staff and management positions. Many students combine the economics major with another related major such as political science, information and computer science, business or communications. which broadens the range of options available to them. Others plan to do graduate work in economics or other specialists in government, business or higher education. Bachelor of Science degree

ENGLISH

English majors may concentrate on either of two programs; literature or writing. Both programs encourage students to explore many facets of human nature and culture through the study of literature and to develop understanding and skillful use of language. Both concentrations help students acquire the knowledge, analytical skills and writing abilities needed by such professionals as writers, editors, teachers, business managers, and lawyers. Bachelor of Arts, * Students pursuing this degree must also declare a minor*

FINE ART

Students majoring in Fine Arts receive a general introduction to studio work in a variety of media: painting, drawing, photography and ceramics or fiber. Fine Art majors frequently work toward K-12 art education certification in concert with their studio majors; others go on to graduate school or set up their own studios and begin actively producing their art work while finding employment in related fields.

Bachelor of Arts degree *students pursuing this degree must declare a minor*

GEOGRAPHY

The skills obtained by studying geography make graduates in demand for a wide range of employment opportunities. The geography curriculum will prepare students for business and academics while encouraging life long learning skills. The link between geography and the world (cultural & physical) makes a varied list of careers. Geographic skills are essential to understanding physical patterns, human patterns and Earth's processes. These skills are important for anyone critically thinking about the global community. Bachelor of Science degree.

Major Electives: 18-24 cr.

At least 6 courses designated as GGH, GGP or Go; 3 courses (9 cr.) must be 300-400 level or above.

Required Minor: 18-24 cr.

Any of the minors offered by the university or successful completion of a 2nd major.

Available through the Parkville 16 Week and Online Program

^{*} Only one course (3 cr.) completed for the major requirements may also be counted as satisfying part of the minor requirements.

GRAPHIC DESIGN

Students majoring in Graphic Design produce most of their work in the digital environment of Park University's fully equipped Macintosh studio. Today, most artists earn a living by producing a wide range of visual materials for publication. Graphic design students learn visual communication, typography, layout, illustration and photography while building professional quality design portfolios. Instruction models conditions in the professional environment. Internship opportunities in graphic design firms and other professional settings provide real world experience and a transition to the world beyond the campus. Bachelor of Science degree.

HISTORY

History affords the opportunity to appreciate the diversity of human encounters through the inquiry of one's own and other's cultures and societies as they have developed over time. The study of history is a meticulous intellectual discipline involving research techniques, problem solving, and the critical evaluation of evidence. Historians seek and critique what women and men of the past have left behind, what they have created and what imprints they have left on the global society. The study of history prepares students for a wide range of occupations and professions such as: graduate studies, museum administration, historic preservation, teaching, government, law school, archival, business, and publication.

Bachelor of Arts degree. *Students declaring this degree must also declare a minor.*

Information & Computer Science

The Information and Computer Science (ICS) curriculum prepares students for a broad range of computer opportunities in industry as well as in graduate studies. ICS students choose one or more specialty areas from among these four options: (1) Computer Science, (2) Software Engineering, (3)Data Management, or (4) Networking and Security. As part of their curriculum, Networking and Security students take Cisco Certified Network Associate (CCNA) courses that prepare them for the CCNA certification exam. Depending on their chosen specialty area, ICS graduates are well prepared for these industry positions: web programmer, applications programmer, systems analyst, information technology specialist, database analyst, or network analyst. Bachelor of Science degree.

INTERDISCIPLINARY STUDIES

The Interdisciplinary Studies major allows the student to develop a major by combining two different disciplines. This affords students the flexibility to design their own degree while making an efficient use of courses they have accumulated. It requires the combination of two minor degrees of study. One that is listed in the catalog and another one either listed in the catalog or created by the student out of a set of courses that represent a body of knowledge. Bachelor of Science

Johnson County Community College

Core Requirement

Minor One

one minor as described in the University catalog 8-21 cr.

Minor Two

one minor as described in the University catalog (OR) a personal minor field of study constructed by the student and approved by the Dean of the School/College who supervises the program reflected in Minor One

LE 300 Integrative and Interdisciplinary Learning Capstone 3 cr.

LS 400 Senior Project 3 cr.

Available through the Parkville 16 Week, KC 8 and Online Programs

INTERIOR DESIGN

The professional interior designer is qualified by education, experience and examination to enhance the function and quality of interior spaces for the purpose of improving the quality of life, increasing productivity and protecting the health, safety and welfare of the public." (Foundation for Interior Design Education and Research) Students majoring in Interior Design at Park University combine the common body of knowledge in interior design with the intellectual development found in a liberal arts education. A sequence of design studios and graphic communications studios with supporting lecture courses provides the practical content integral to the profession. Bachelor of Fine Arts degree. *A minor is NOT required for students declaring this degree.*

LEGAL STUDIES

The Bachelor's Degree in Legal Studies is meant to prepare students to be successful in law school or in graduate schools leading to legal careers. The program emphasizes critical thinking, logical reasoning, and analysis of contemporary legal and social issues, reading and writing. The internship allows students to see the practical application of their studies.

Bachelor of Arts degree. *Students declaring this degree must also declare a minor.*

LIBERAL STUDIES

The liberal studies major allows the student a major composed of various disciplines rather than one discipline only. It emphasizes breadth, while requiring a concentration of 15 credits in a single discipline. It is intended that, by broadening the student's cultural perspective, heightening the student's analytical powers, and providing models for understanding experience, the liberal studies major will make a valuable contribution to whatever vocation the student elects. It may be taken along with vocational courses, or as a second major, or as preparation for a graduate or professional degree.

Bachelor of Arts degree. *Students declaring this degree must also declare a minor.*

MANAGEMENT

Students taking the Management core receive a broad education covering the major functional areas of management. This degree will help a student prepare for business or government leadership and provide them with knowledge and skills desired by all types of employers. Graduates in Management typically find jobs in business such as production management, personnel management, marketing management or financial management. The intent of this program is also to meet the educational needs of students who intend to enroll in graduate work in business administration. The program is designed to provide the student with the necessary background to satisfy the demands for alternatives while at the same time developing a breadth of knowledge in the liberal arts tradition. Bachelor of Science degree

MATHEMATICS

Mathematics is both a body of knowledge concerning a class of symbols and the relation between them, as a system of thought and communication, as well as application of that system to other areas of human experience. As a system of thought, it derives from philosophy and provides a language which has particular beauty and clarity. Applied to other areas of human experience, mathematics has provided great power and precision to a wide range of endeavors, and thereby has supplied an essential contribution to the rise of modern civilization. The study of mathematics prepares students for graduate studies in mathematics, related sciences, economics and business administration. Other options include beginning actuarial work, teaching at the secondary level and beginning work in the area of data processing. Third and fourth year MA courses will be determined in consultation with the students advisor. Bachelor of Science degree.

Music

The International Center for Music has been established to foster the exchange of master teacher performers, renowned young musicians, and programs from countries across the globe. The education of emerging musicians is at the philosophical core of the Center's mission and the quality of that training crucial to great artistry. Music is an international language and enables all people to share in experiences that help shape their culture and values.

The program serves the total student body by providing ensembles, lessons, and courses, which are open to all students. Also, the program makes available to the student body concerts and recitals throughout the year in the Graham Tyler Chapel. Programs of study for students choosing music are a Bachelor of Music (applied emphasis in Piano, Violin, Viola or Cello), and a Minor in Music with an applied emphasis. Audition required for Bachelor of Music and Undergraduate Certificate.

POLITICAL SCIENCE

The Bachelor's Degree in Political Science provides students with information and abilities to become participative citizens and cope with the problems of modern politics. The degree also seeks to prepare well-rounded students for careers in the public sector and to prepare those who seek admission to graduate school. Analytical skills, especially critical thinking, are stressed in all courses. The Senior Thesis provides an opportunity for students to develop research skills while the Internship exposes students to opportunities for practical applications of what they have learned. Bachelor of Arts degree. *Students declaring this degree must also declare a minor.*

SOCIAL PSYCHOLOGY

Social Psychology blends the strengths of psychology and sociology. It studies the 'person in the situation,' and integrates knowledge about individual, group, and organizational processes. It is an adaptable major that trains students for a wide range of career options, and it is personally useful in every facet of your life beyond mere employment. Social Psychology trains you to see yourself, others, and the cultures and societies we live in more clearly, critically, and completely. Bachelor of Science degree.

SOCIAL WORK

The Social Work degree program prepares students for beginning professional social work practice in a wide variety of human service and treatment settings. As generalist social work practitioners, graduates will be prepared to work collaboratively with diverse populations, particularly those who are vulnerable and at risk. Eco-systems theory and strengths perspective serve as overarching conceptual frameworks throughout the curriculum. All aspects of student learning in the classroom are integrated with the senior year field practicum experience. Bachelor of Social Work.

SOCIOLOGY

Sociology is the study of people in groups, their interactions, identities, and the societies, institutions, and cultures they create. As a social science, it combines the scientific and humanistic perspectives to study the full range of human experience and helps us understand pressing social issues and connect them to individual human concerns. It is a valuable liberal arts major that prepares students for a variety of careers in business, government, human and social services, and social research and data analysis. It teaches students to collect, analyze, interpret, and apply valid and reliable data and explanations to personal decisions and to public and organizational policies. Bachelor of Arts degree. *Students declaring this degree must also declare a minor.*

SPANISH

The Spanish Major is designed to assist students in the acquisition of this language as a tool of communication to be utilized in the local, national, and global communities. Along with the study of the Spanish language, the study of the Hispanic and indigenous cultures is an integral part of the program. The emphasis of this program is on cultural studies and the development of skills for communication in the present day world. The study of literature will serve as a vehicle to a better understanding of the language and culture. Bachelor of Arts degree. *Students declaring this degree must also declare a minor.*
