2012-2013

**BSBA in Finance**

This program is designed to impart an understanding of the various areas and principles of finance and provide the student with a core knowledge and analytical methods. The program prepares students for corporate finance positions by developing a core set of skills in financial modeling, debt and equity issues, valuation, mergers and acquisitions, financial planning, risk management, financial reporting and analysis, and taxation. It focuses on financial institutions, capital markets, and financial management to achieve the optimal return of funds. The intent of this program is to meet the educational needs of students who wish to pursue careers in private or public profit or non-profit organizations as well as graduate studies in finance or business administration.
