### Recommended Schedule

The following is a **sample** schedule that would result in a student accumulating enough credit hours to earn a B.A. degree in Fine Arts. It is calibrated for a theoretical student who takes courses face-to-face during the traditional academic year, does not bring in any transfer credit, and has not tested into higher level courses. The degree map will need to be adjusted for students who have previous college credit or who “test out” of introductory courses, and it does account for the possibility of taking classes online or during the summer term. **This guide is not a substitute for academic advisement.**
