<b>Electives</b>	<b>38</b>	<b>32</b>	<b>6</b>
Lower-division elective credit accepted via A.A.S.	32	32	-
Two (2) elective courses of the student’s choosing (from any discipline, at any level, must be 3 ch)	6	-	6
<b>Total Credits Required Bachelor of ---- Degree</b>	<b>120</b>	<b>60</b>	<b>60</b>

Note: The 2017-2019 CCAF Catalog general education requirements allow students the choice of taking two, non-duplicative college composition courses (6 credit hours) or one college composition course and one oral communication course (6 credit hours). Accordingly, the Liberal (General) Education Area on this PPF reflects that students who transfer in with two college composition course are required to complete Park’s oral communication requirement (CA 103 or CA 105). Alternatively, students who transfer in one college composition course and one oral communication course are required to take a second, non-duplicative college composition course at Park University (EN 106).

(\*) Courses that concurrently satisfy both a general education or graduation requirement *and* a requirement within the core. The hours under required semester credits are waived and not in the overall Liberal Education Count

(\*\*) Courses that concurrently satisfy both a general education or graduation requirement and a requirement within the core and hours are not added to the overall liberal education count.

(^) The CCAF A.A.S. degree requires 24 credits of ‘technical education’. This requirement, combined with the technical nature of the degree itself, satisfies Park University’s learning outcomes for CS 140, Introduction to Computers, and the four-hour liberal (general) education lab science course.

(#) The CCAF A.A.S. degree requires six credits of ‘leadership, management, and military studies,’ which articulates to Park as satisfying one, three-hour social science general education (i.e., MG 271, Principles of Supervision or MI 126, Basic Leadership). This, combined with the general education social science course CCAF students are required to take for their degree program, is considered to satisfy Park University’s liberal (general) education requirement for social sciences.
