## Study Abroad Financial Aid Application

Park University Study Abroad Department will help you select a study abroad program and provide you with an estimated cost of that program.

If you are planning to use your financial aid to pay for your study abroad, please bring this form directly to visit with financial aid. Financial aid will provide you with an estimate of aid that could be used for a study abroad semester.

### Student Check Sheet

- Make appointment and visit International Education Department to determine your Study Abroad Program and how to apply. \*Bring your Study Abroad Financial Aid Application with you. International Education Department will provide you with an estimate of the study abroad costs (applies to Park Exchange and Affiliate Programs only). International Education will outline the courses offered by the program.
- Make appointment and visit your Student Success Coach (bring your Study Abroad Financial Aid Application with you). Your Student Success Coach will review your course selection to determine transfer credit/Park equivalency. Bring your Study Abroad Financial Aid Application with you.  
\*Note – Your federal financial aid will *only* pay for courses that fulfill a degree requirement. If you are further in your degree program and have already fulfilled all elective requirements, some of your courses may not be aid eligible.
- Make appointment and visit with a Financial Aid counselor. Bring your Study Abroad Financial Aid Application with both the study abroad cost estimate section and transfer credit review sections completed. Your financial aid counselor will review the costs/credits compared to your financial aid award and provide you with estimated financial aid funding for your study abroad program and outline any gap that will need to be paid out of pocket or through alternative funding.
- Once you are accepted into your Study Abroad program, finalize any changes in course enrollments with your Success Coach. Bring the updated transfer credit form to Financial Aid for a final review.
- Before you leave the United States, be sure that you have all enrollment and financial aid finalized. Do not leave the country assuming that everything is finalized unless you have completed all of the steps above. Be prepared to provide your own pocket money since it can take at least 10 days after the start of your program for financial aid to disburse to your Park student bill.

### Affirmation of Financial Aid Fund Use

I understand that I am responsible for paying any costs charged by the host institution (including tuition, fees, housing and/or meals) and will use accepted financial aid for this purpose.

I understand that any existing balance at the host institution must be resolved in sufficient time to allow the receipt and review of my transcripts by the 90<sup>th</sup> day after the program ends.

I understand that I will be asked to and need to comply with requests from the Park University Financial Aid Office to have my instructor(s) and/or host institution certify that I am participating in all classes and enrolled as a full time student.

I understand that my failure to do this will result in the loss of all federal and Park-administered institutional financial assistance.

I understand that if I don't transfer all of the approved transfer credits back to Park University, my aid may be adjusted based on the number of transfer credit hours received and/or my verified attendance in coursework while abroad.

I understand that my financial aid will not be increased for unanticipated or emergency expenses as it relates to my study abroad travel.

I understand that financial aid funds will not be available until after my course participation is certified and that I am prepared to cover my own expenses until funding is disbursed.

I understand that any gap between the cost of the program and my financial aid is my responsibility. I will pay any balance owed after financial aid to Park University before I leave the United States for my study abroad program.
